## BENEFITS OF SWITCHING

If you've already got a set-top box, chances are you're also subscribing to a bunch of channels you never quite get time to enjoy.

Rather than pay through the nose every month, why not just lose the extra clutter, keep the choice and pay for what you use?

**1** Your Smart TV already has Freeview and other great apps built in. There's plenty to choose from if you just fancy channel hopping.

**2** There's no need to subscribe unless it's to something you really want. And even then, many subscriptions come in a lot cheaper than a set-top box.

**3** Less clutter. It's all driven through your TV and wireless internet. There's no extra boxes in the way, wires to trip over or multiple remotes to lose.
