SAMSUNG SMART SIGNAGE TV CONTENT CREATION SERVICE

The easiest way to create premium content
for your SMART Signage TV

Introducing a cost-effective and creative solution for small business owners to have premium content for their SMART Signage TV without needing to produce it on their own.

Samsung's Content Creation Service allows for:

- Development of premium and high-quality content by professional designers, for customers experiencing limitations for developing the content.
- Streamlined processes from purchasing content through the website to suit your needs.
- Dedicated support backed by 24/7 customer service and design specialists.

Ideal for customers:

- Who have concerns with creating professional-looking content and the associated costs.
- Who have little time to oversee content development and management.
- Who seek a solution that is easy enough for new staff to quickly acclimate to.

SAMSUNG

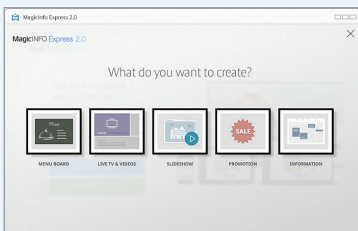

A SIMPLIFIED AND COST-EFFECTIVE WAY TO ENSURE COMPELLING CONTENT

Samsung's Content Creation Service puts you fully in control of the quality of your digital signage content without any added pressure regarding cost, time or inexperience of software.

High-quality and impacting content

Backed by years of experience, our Content Creation Service is staffed with professional designers who possess the knowhow for creating visual messages that produce results such as menu boards, welcome screens, promotions and video ads to help you attract more customers and grow your in-store revenue.

Streamlined ordering and content management processes

Upon purchasing from our simplified Content Creation Service website, content will be created and promptly made available, where customers would then just need to download the content via the website, save it to USB, and plug it into their Smart Signage TV for automatic playback. Customers can find it easy to change and manage contents according to their needs.
