Introducing the revolutionary new Samsung Galaxy Note 10.1 from the world's largest IT manufacturer. Push the boundaries on what you view – and now on what you can create. With the innovative S Pen’s writing capabilities, you can take handwritten notes and view, create, and edit everything from text documents and spreadsheets to presentations and PDFs.

Samsung also helps ensure that an organization’s mobile workforce is protected through features like on-device encryption and partnerships with leading Mobile Device Management (MDM) companies. Enhanced features that maximize efficiency and productivity through Virtual Private Network (VPN) connectivity and enhanced corporate Email/Calendar/Contact features make Samsung Galaxy devices the ultimate solutions for business professionals on the move.
