26 cu. ft. French Door Refrigerator with External Water & Ice Dispenser plus Dual Ice Maker

Twin Cooling Plus System®:

Delivers superior food preservation results usually only found in advanced commercial-grade cooling systems. Twin Cooling Plus System®, the next generation of Twin Cooling® technology, uses two evaporators with only one compressor to independently control temperature in the refrigerator and freezer compartments, maintaining optimal humidity levels and preventing odor transfers between compartments.

Surround Air Flow:

Surround Air Flow provides even cooling throughout the refrigerator to maintain optimal temperatures to keep food fresh.

Power Freeze and Power Cool Options:

Power Freeze and Power Cool Options can be used when foods need to be brought down to a lower temperature quickly or when the temperature inside the refrigerator or freezer compartment needs to be cooled due to repeated door openings.

Cool Select Pantry™:

Cool Select Pantry™ provides additional temperature control for your food storage needs with Quick Cool, Thaw and Soft Freeze, Chill Mode, and Cool Mode options.

External Digital Display and Control:

Controlling the refrigerator is easy with the external digital display. It shows the inside temperatures, when to change your filter and also controls the ice and water dispenser.

Dual Ice Maker:

No need to worry about running out of ice when entertaining with Samsung's Dual Ice French Door Refrigerator. Two independently controlled ice makers—one in the fridge, one in the freezer—produce almost two times the ice of our single ice maker model for added convenience.

Refrigerator: 17.6 cu. ft.

- Premium External Filtered Water and Ice Dispenser:
 - Crushed or Cubed Ice
- Surround Air Flow
- Cool Select Pantry™ with Temperature Control
- 2 Humidity Controlled Crispers

French Door design provides easy access to fresh food and flexible storage options.

Twin Cooling Plus System® uses two evaporators with only one compressor to independently control the temperature in the refrigerator and freezer.

Two independently controlled ice makers—one in the fridge, one in the freezer—produce almost two times the ice of our single ice maker model for added convenience.

EZ-Open Handle™ lifts the handle to open the freezer with no force needed.

Design and specifications are subject to change without notice. Non-metric weights and measurements are approximate.
