

Bespoke Air Dresser

- x2 Air Hangers
- x2 pant clipper + Hanger Kit
- Touch + LED Display
- Dimensions:
(W) 445 mm
(H) 1850 mm
(D) 632 mm

JETSTEAM

HEATPUMP DRYING

JET AIR + AIR HANGER

WRINKLE CARE

JetSteam

The Jet Air system refreshes your clothes with high temperature steam. It also eliminates different types of viruses, bacteria and other harmful substances.¹

HeatPump Drying

Gently dry clothing items with minimal shrinkage, from the upper JetAir and lower HeatPump.

Sensor Dry

Jet Air, coupled with Air Hanger sends powerful jets of air up, down and through your clothes to loosen and remove ingrained dust, with minimal noise and vibration.²

Wrinkle Care

A combination of steam and air relaxes clothing items and smooths out creases, so they're ready to wear in a flash.

1. Eliminates certain viruses based on testing by the Korea University laboratory, using a Sanitise course, 99.9% of 2 types of bacteria (E.coli and S.aureus) using a Sanitise course, 99% of harmful substances (Perchloroethylene) based on testing by Intertek using a Normal course. Individual results may vary depending on the actual usage situation. 2. Based on internal testing it has a Noise Rating of 42.8 dB in normal mode and is 37.8 dB in Silent mode. This is the max LEQ sound level from the front, lateral and rear sides. Testing was conducted in an anechoic room at a distance of 1.0m from the product. The results may vary depending on the actual usage situation.
