

12kg Top Load Washer

- Bubble Storm
- Digital Inverter Technology
- Hygiene Steam
- Colour: Black
- Dimensions:
(W) 700 mm
(H) 1131 mm
(D) 748 mm

BUBBLESTORM™

DIGITAL INVERTER
TECHNOLOGY

HYGIENE STEAM

HEAVY DUTY+

BubbleStorm™

Wash faster and more efficiently with BubbleStorm™. Its 3 specialist functions clean clothes in 31 minutes*, using 20% less energy* and 23L less water.* Active Bubble™ helps detergent penetrate 2.5x faster.** A Dual Storm™ whirlpool cleans effectively, while Speed Spray™ reduces rinsing times.

Hygiene Steam

Give your laundry an intensive, hygienic clean with hot water and steam. The Hygiene Steam cycle* washes at 60°C to sanitise clothes, eliminating 99.9% of bacteria** and removing stubborn and oily stains.*** Or you can adjust the temperature to 40°C to clean everyday marks and soiling, like sweat.

Digital Inverter Technology

Enjoy greater energy efficiency, less noise* and a long-lasting performance. Digital Inverter Technology uses a planetary gear system to quietly amplify the power of the motor by 5 times**, while using up to 40% less energy***. It also offers outstanding durability****, backed-up by a 20 year warranty.

Heavy Duty+

Enjoy highly concentrated detergent washing with the Heavy Duty+ cycle. It automatically starts washing using 20% more concentrated detergent for an intensive cleaning action. This allows it to reduce the washing time by 21 minutes* and energy consumption by 11%*, while offering the same washing performance.

*Based on internal testing of the WA23A8377KV model with the Speed Spray™ option, using an IEC 3kg load (water level 3), compared to Normal course without the Speed Spray™ option. Results may vary depending on the actual usage conditions. *Based on internal testing of the WA6000R with an inverter motor and the WA6700J with a non-inverter motor on a Normal Cycle (Cold, 7.7kg load). **Based on internal testing of the Digital Inverter Technology Motor (25°C, Motor Dynamometer). ***Based on internal testing of the WA6000R with an inverter motor and the WA6700J with a non-inverter motor on a Normal Cycle (15 ± 2°C, 3kg load). ****Awarded a 20 year durability certification by the Association for Electrical, Electronic & Information Technologies in Germany (Verband Deutscher Elektrotechniker – VDE). Actual lifespan may vary depending on the usage circumstances. *Available when washing laundry loads up to 5kg. **Based on the Intertek test report for the Hygiene Steam course. Removes 99.9% of certain bacteria, including Staphylococcus aureus and Escherichia coli. Individual results may vary. ***Based on internal testing. The optimal temperature may vary depending on the type and condition of the dirt and stains. *Based on internal testing, using an IEC 5kg load (water level 6) in accordance with a national standard test, compared to a Samsung conventional washing machine, WA22T7870KV. Results may vary depending on the actual usage conditions.
