SIMPLE ACCESS
AND CONTROL

MAGIC FILTER

Air Turbo

Air Turbo Drying System helps to reduce drying times. This optional cycle creates a powerful vortex of air to help further reduce residue moisture level in clothes.

Tub Clean

Tub Clean technology easily cleans the tub of your machine without the use of chemical detergents. It can even notify you automatically when it needs cleaning.

Simple Access and Control

This Samsung washing machine has a slanted, dual cluster control panel for comfortable, intuitive use. With buttons located on both sides of the panel, it is simple to select the right washing cycle.

Magic Filter

This Samsung washing has the magic touch when it comes to making lint appear to vanish. Magic Filter gets to the bottom of lint problems, working below the water line to help trap lint and debris. It's easy to clean, with a convenient indicator light to tell you when to empty it.
