- Bubble Wash
- Bubble Soak
- Colour: White
- Dimensions:
(W) 600 mm
(H) 850 mm
(D) 600 mm

SMART CONTROL

ADD WASH

BUBBLEWASH

HYGIENE STEAM

Smart Control

Smart Control gives you the freedom to control and monitor your washing from anywhere using the Samsung Smart Things app.* Use the app to start or pause the machine, keep an eye on program selections, track your washing cycle and even setup automatic alerts to remind you when your washing is done.

Add Wash

AddWash™ gives you the flexibility to add a forgotten piece of clothing or more fabric softener, even after your wash cycle starts. This is made possible via the Add Door and allows you to keep the wash cycle going without having to drain the drum of water and detergent.*

BubbleWash: Powerful cleaning

Bubble Wash turns detergent into bubbles, allowing it to quickly penetrate fabric and help remove dirt; all while protecting the fabric and delicate clothes.*

Hygiene Steam

Give your clothes a really deep clean with steam. Powerful steam is released from the bottom of the drum, so every item in the load is thoroughly saturated. This helps remove engrained dirt and certain bacteria and inactive allergens.*

*Download and installation of SmartThings app is required. Samsung Account required. Available on Android and iOS devices. For interoperability through SmartThings, all the devices should be registered with a single Samsung Account. Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected. Apps and services are subject to change without notice. Data, subscription and other charges may apply. **Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected. *Only fabric items, clothing, detergent and softener can be added. The AddWash door only opens when the drum temperature is below 50°C. *Based on the Performance Lab Test report by Springboard Engineering on EMPA strips, comparing a normal detergent solution and bubble technology without mechanical action. *Based on third party testing conducted on Staphylococcus aureus and E coli, January 2018.
