SMARTTHINGS COOKING

Big Capacity (76L)

Create more and larger dishes with a massive 76 litre capacity oven. It opens up more possibilities in home cooking. You can prepare lots of different food together, like everything you need for a party. Or it can easily accommodate large items, from pavlova to roast lamb.

Catalytic Cleaning

Save yourself the time and effort of scrubbing the oven. A Catalytic Cleaning* system makes it easy to keep the oven clean. The catalytic liner at the rear of the cavity absorbs grease from splashes and drips during cooking. So it cleans itself without any hard work or costly cleaning products.

Telescopic Rail

Get things in and out of the oven easily. The Telescopic Rail slides in and out smoothly with hardly any effort, even if you're using large or heavy dishes. It creates much less friction, so it's much easier to load and unload. You can baste, turn and season food without any spills.

SmartThings Cooking

Make your kitchen experience more joyful. SmartThings Cooking* saves time and minimises the burden of cooking. By understanding your needs it recommends personalised recipes** and creates a weekly meal plan.

*Requires a wireless network, a Samsung account and the Samsung SmartThings App. The Samsung SmartThings App supports Android OS 8.0 (Oreo) or later, which is optimised for Samsung smartphones. This App also supports iOS 13 or later for iPhone models. The SmartThings App is available in the App Store and Play Store. **Available in certain languages, including English, French, German, Italian and Spanish.
