

# WORK FROM ANYWHERE USING YOUR SAMSUNG DEVICES.

## Comply365

Comply365 offers a full suite of mobile, cloud-based solutions that make it easy for enterprises to work anywhere. Users in every department can get documents, forms, communications, tasks and training in one central place—anywhere on any device. Streamline and automate operations, reduce risk and stay compliant.

## Key Features

- **Central Portal for Users:** Documents, forms, communications, tasks and training delivered to each user in one place.
- **Productivity Anywhere on Any Device:** App links and syncs to enterprise solution; users can access content and complete forms, tasks and training on Samsung smartphones and tablets.
- **Smart Forms:** Complete smart, active forms anywhere.
- **Easy to Use:** Intuitive for users at all levels in every department.
- **Role-Based:** Employees, contractors, vendors and regulatory authorities can see only the information distributed to them.
- **Dashboard Reporting:** Management can see compliance, action and trends across the ecosystem.
- **Compliance and Full Audit Trails:** Time and date stamps action down to individual; one-click reporting for outside agencies such as FAA, OSHA and others.
- **Revision Control:** Automatic revision control ensures users have the most recent documents.
- **Search:** Basic and advanced searching makes it quick and easy to find information.
- **Leverage Existing Investments:** Link and sync data with existing databases and solutions.
- **Single Sign-On:** Give users one easy login and corporate security and authentication.
- **Content Control:** Remote wipe and lock, native Android app and container for third-party apps.

## Customer Benefits

- Management has dashboard reporting and line of sight.
- Turn-key services, including tablet-rollout services and procurement of devices and accessories.
- Paperless content-distribution platform.
- Integrates with existing databases and solutions to automate, streamline processes and deliver insight.
- Serves as a single, role-based solution for the entire enterprise.
